

IQVIA Cohort Development

Streamline and improve RWD feasibility assessments

Do you want to answer crucial feasibility questions faster? Do you need to access global, comprehensive data sets to quickly determine research appropriateness?

Gain swift access to exclusive global Real World Data sources for fast, reliable, and cost-effective analysis with IQVIA's Cohort Development.

Access exclusive global Real World Data sources quickly, reliably, and cost-effectively. Leverage the Cohort Modelling self-service capability to assess study data suitability and gain insights on your own, or Ask Our Experts to conduct feasibility studies against IQVIA global datasets on your behalf. Analyze drug usage, condition occurrences, procedures, visits, and more.

Cohort Development

Counts and clinical characteristics, unlimited advanced inclusion/exclusion criteria.

Integrated Workflow

Seamless transition from initial assessment into deeper analytics and evidence generation.

Direct access to datasets as you need them

Deliver Real World Evidence with advanced methods

Rapid patient cohort development

Enhanced sharing, dashboarding and report delivery

Flexible Delivery Options

Self-Service

Get faster, more accurate results with new AI-powered Rapid Cohorts

Say goodbye to tedious manual cohort building and hello to faster, more accurate results with our new AI-powered Cohort Development. Our advanced search now provides associated diagnoses, therapies, and procedures suggestions, so you can improve definitions and criteria for building cohorts and get patient counts in a fraction of the time and with greater precision.

Conduct faster, more reliable research across datasets and countries

Direct access to datasets as you need them

Get access to refreshed data fast

Rapid patient cohort development

Identify your required populations in less time

Characterize your populations faster

Accelerate insights into patient characteristics, trends and outcomes

Enhanced sharing and report delivery

Enhanced team collaboration through asset sharing, intuitive query workflows and report distribution

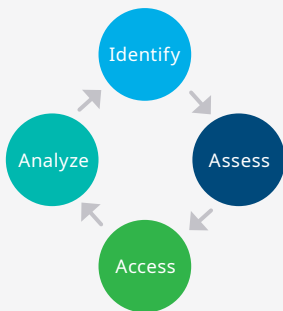

Flexible pay-per-use pricing plans enable you to scale up or down to meet the changing needs of your projects

Make faster and more informed decisions with our single-vendor solution. Leverage the highest quality data available and flexible pricing plans that allow you to access what you need to succeed when you need it.

Key takeaways:

- Quickly assess whether a study is practical and achievable given available resources, data, and design
- Access exclusive global Real World Data sources and networks
- Achieve faster, more accurate results with our new AI-powered cohort builder
- Multiple licensing options enable you ask unlimited feasibility questions across multiple datasets to get rapid answers at low cost

IQVIA Analytics Research Accelerator

A complete solution for cross-functional teams, effortlessly unlocking exclusive Real World Data and delivering rapid analytic capabilities. From data landscaping to real-world insights and evidence generation, this solution empowers teams to streamline analytics and generate reliable insights efficiently.
